

ARRESTING RED TECHNIQUE

NATURAL LEVEL 5 (FOIL 1)
(Non-color treated hair).

FORMULA 1

- AGEbeautiful Crème Lightener
- 10-volume AGEbeautiful developer (1:1 mixing ratio) or
- 20-volume AGEbeautiful developer (1:1 mixing ratio)

FORMULA 2

(choose whether a demi or permanent shade is best for your client)

For more than 50% gray:

- AGEbeautiful 6R Permanent with 10-volume or 20-volume developer (mixing ratio 1:1)

For first or few grays (less than 50% gray):

- AGEbeautiful 6R Demi Permanent with demi developer (mixing ratio 1:1)

STEP 1

Using Formula 1, gently paint random streaks of hair all throughout the head. Be careful not to use heavy amounts of lightener, to avoid clumps of lightening.

STEP 2

Process until a slightly lighter shade of color is achieved.

STEP 3

Apply Formula 2.

STEP 4

If you are using:

AGEbeautiful Permanent; process for 15 minutes then pull through the lengths of the hair for the last 10 – 15 minutes of the processing time.

AGEbeautiful Demi Permanent; apply scalp to ends and process for 20 minutes.

STEP 5

Rinse thoroughly, shampoo, condition and style (we recommend using AGEbeautiful hair care products).
