Sara is starting at a Level 5 with faded ombré and gray roots.

Sara has incredibly resistant grays that need complete coverage and she would also like to refresh her faded, old highlights using a gentle, non-ammonia gloss.

NEW AGEbeautiful extra pigment-packed NN series and super gentle AGEbeautiful Demi-Permanent color to the rescue! The ultra rich, intense, high performance NEW NN shades will eliminate even the most resistant grays, while the gentle rejuvenating color of the demi will deliver results that you can count on.

Not only will Sara have a fierce brunette finish with solid, intense gray coverage but will also benefit from the AGEbeautiful anti-aging ingredients. Keratin peptide, silk protein and Vitamin E all team up to restore shine, volume, moisture and manageability.
