Shake up your typical blonde with a radiant refresh that feels totally “now.” Lisa had a disconnected dishwater color on top, with a solid dark reddish tone in the back nape area. Connect the two shades and transform her on-the-fence blonde into a refreshing, summery rose gold.

HERE'S **MIKE PETRIZZI'S** AGEbeautiful FORMULATION.

STEP 1

Mix Formula 1 and apply dense, diagonal slice highlights starting in the back nape of the head, and work your way up, lightening the amount of foils as you approach the blonder sections.

STEP 2

Go in between the nape section foil wrap, grabbing the dark reddish brown hairs that aren't in foil and apply the lightener to the ends of the hair freehand. Process until hair is a pale yellow, then rinse, shampoo and towel dry.

STEP 3

Mix 1 ¾ oz. Clear Shine Haircolor with ¼ oz. 6R Demi Permanent Haircolor and 2 oz. Demi Permanent Developer, and apply to the roots of the hair first.

STEP 4

Once roots are completely covered, add the remaining Clear Shine and ¼ oz. Demi Developer to the applicator bottle or bowl and remix, then apply to mid-lengths and ends of hair. Process for 5 minutes, then rinse, shampoo and condition.
